microPDM: "Product Data Management" Addin for SpaceClaim

microPDM is a basic "Product Data Management" addin for SpaceClaim. It can be used to link datafiles, datasheets, etc. for components in a SpaceClaim file and can be managed easily.

Who should use it?

SpaceClaim users who would like to link files such as a datasheet, specification file or websites with parts and components in a SpaceClaim file. If you are one, please continue reading.

Why should you use it?

Problem: Components may be designed by looking at some specification file or certain datasheet needs to be assigned to each component. Out of the box, you may have to keep the files at known location and open them manually. It is time consuming and inefficient.
Solution: microPDM lets you link files or website with components in a very easy way. Th ient and easy way.
